⌖ Lahore, Punjab, Pakistan

TECHNICAL SKILLS

Programming

- JavaScript (ES6+), Node.js

Backend & APIs

- Express.js, REST APIs, JWT Authentication, bcrypt, Middleware, MVC

Databases

- MongoDB (Atlas, Mongoose), MySQL

Frontend

- React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, EJS, Responsive Design

Tools

- Git, GitHub, Postman, VS Code, npm, Vite

SOFT SKILLS

- Analytical & Problem Solving
- Quick Learner
- Team Collaboration
- Communication
- Time Management

LANGUAGES

- English
- Urdu

PROFESSIONAL SUMMARY

Motivated BSIT graduate with hands-on experience in full-stack web development using React.js, JavaScript, Node.js, Express.js, and MongoDB. Experienced in building responsive web applications, developing RESTful APIs, implementing JWT-based authentication, and working with database integration. Completed NAVTTC Full Stack JavaScript training and developed academic and internship projects, including Mobile Bio Lab and four web development tasks. Seeking a Junior Full-Stack Developer or MERN Stack Developer role to apply technical skills, contribute to real-world projects, and grow as a software professional.

PROJECTS

ZaikaGo – MERN Food Delivery App — In Progress

MongoDB · Express.js · React.js · Node.js

- Built backend REST APIs with bcrypt password hashing, JWT-based authentication, and middleware protecting user routes.
- Modeled and integrated a MongoDB database via Mongoose, following MVC architecture.

Mobile Bio Lab – Full-Stack Web Application — GitHub

React.js · Node.js · Express.js · MySQL · REST APIs · Bootstrap · Git

- Built a laboratory management system with a React.js front end, Express.js REST API, and MySQL database for service requests and biological sample records.
- Implemented user registration, login, and an admin dashboard for user verification, record editing and deletion, and PDF export.
- Developed modules for experimental data storage, data visualization, and reports; documented setup with a SQL schema.

Employee Management System — GitHub

HTML5 · CSS3 · Vanilla JavaScript (ES6) · localStorage

- Developed a responsive CRUD application to add, edit, and delete employee records, persisted with localStorage.
- Structured code with the Model-View-Controller (MVC) pattern, separating data, rendering, and user-action logic.

INTERNSHIP

Full Stack Web Development Internship – Datheon — GitHub

- **Task 1 – Personal Developer Portfolio:** Built a responsive portfolio site with HTML and CSS presenting profile, technical skills, and projects.
- **Task 2 – Dynamic Task Manager & Productivity Tracker:** Developed an interactive task manager using JavaScript with organized, readable code.
- **Task 3 – Real-Time Weather Forecast & Climate Telemetry App:** Integrated an external API using asynchronous JavaScript, with dynamic data display, error handling, and debugging.
- **Task 4 – E-Commerce Product Catalog & Interactive Shopping Cart:** Built a React.js (Vite) app using the Fake Store API, with cart features (add, update quantity, remove, totals); verified the production build.

EDUCATION

BS Information Technology — 2026

Virtual University of Pakistan · CGPA 3.25/4.00

CERTIFICATIONS

Full Stack JavaScript Development — NAVTTC

National Vocational and Technical Training Commission (NAVTTC)
